

Muhammad Yunus

Node JS Developer

DOB : AUGUST 15, 1995 (27 YEARS+)

ABOUT ME

I am a Node.js Developer with concrete knowledge of vanilla JavaScript with the ability to build applications with both functional and object oriented approaches. I can build RESTful APIs with Node.js using both SQL and NoSQL databases following Moduler and Model View Controller (MVC) architecture.

Besides, I have strong command on TypeScript which is the superset of JavaScript, that emits potential errors while compilation phase, protecting the apps from being crashed at runtime.

CONTACT

House: 29, Road: 06, Block: F,

AREAS OF EXPERTISE

JavaScript | Node.js | MongoDB | MySQL | PostgreSQL | TypeScript | Express | Firebase | RESTful APIs | Docker | AWS Lambda | Cloud Formation | DynamoDB | S3 Buckets | React.js | Tailwind CSS

WORK EXPERIENCES

SOFTWARE ENGINEER

Dream IT LTD, (July 2022 - Present)

Here, I have been working on a Delivery System project named 'DaakBangla'.

SOFTWARE ENGINEER (INTERN)

Aurora IT, (May 2022 - June 2022)

I had some hands-on experience of software development ecosystem in here.

CLOUD CERTIFICATION

AWS Certified Cloud Practioner (Nov 2022)

TRAINING & COURSES (3 YEARS+)

I have taken advanced training on the areas of my expertise that I have mentioned above mostly from the following platforms : **Udemy**, **Pondit, Programming Hero**, **Creative IT** and so on.

ACADEMIC EDUCATION

I had studied **Bachelor of Arts in (English Language & Literature)** from Uttara University. My CGPA is 3.92 out of 4.0 till day. However, I have put a break to my studies leaving it incomplete in order to pursue my career on programming.
